OBJECTIVE

To obtain a position where I can leverage my skills, talents, expertise, and knowledge in technology, software development, data engineering, and data analysis.
I look forward to collaborating on projects to deal with mobile and web development, data engineering/data science and machine learning.

SKILLS

- Programming Languages: Python, Java, JavaScript, SQL, C
- Data analysis and presentation
- Programming Frameworks: Django, Spring Boot, Nodejs, React, Nextjs, React Native, Express
- Cloud computing: AWS, Azure and GCP-AWS Certified
- Machine Learning: Python
- Data engineering: Pyspark, Data pipelines, streaming and cleaning
- Soft skills: professionalism, ethics, self-motivation, communication, empathy
- Operating Systems: Linux, Windows, Mac
- AI and Automation: Claude Code, Codex, n8n

WORK EXPERIENCE

1. **Mobile Developer**, MyIcebreaker PTY Limited, Australia ***January 2024 - Present***
    - Full Stack mobile developer. My role is developing mobile applications, advising the company on industry's best practices, deployment to both Google and App stores. Technologies involved are React Native for both Android and iOS, Spring Boot for APIs and AWS for cloud solutions.
    - Automating company operations using n8n and claude code.

2. **Software Developer**, E&M Technology Limited ***January 2024 - April 2024***
    - Team member of the Treasury System. I was involved in improving, developing, and documenting the Treasury backend system and APIs in Java(Spring boot).
3. **Web and Mobile Developer**, Dowell Research PTE, UK ***June 2021 - December 2023***
    - Team member in developing the company's documentation and hiring system using React and Django helping the company migrate to an online hiring system from Google Forms.
    - Created a Machine learning model to compare the compatibility of software licenses in Python automatically.
    - Led a team of mobile developers and designers to develop a license compatibility and policy generators(legalzard) mobile application using React Native and Django to leverage the model APIs.
4. **Data Engineering Intern**, Explore DSA, South Africa ***July 2022 - December 2022***
    - Responsible for designing, developing, and maintaining data infrastructure.
    - Deployment of machine learning models to the cloud, mainly AWS, GCP, and Streamlit.
    - I created ETL pipelines, managed databases, and integrated data sources.
    - My role included data modeling, working with big data technologies, and data warehousing. I ensure data quality, security, and compliance while automating processes for efficiency. Proficient in programming languages, database systems, ETL tools, and cloud platforms.

5. **Relationship Officer**, Equity Bank Kenya Limited August 2019 - September 2020
    - Responsible for facilitating primary banking operations including customer deposits and withdrawals, Forex and Treasury advisory.

EDUCATION

1. **Data Engineering** - Explore Data Science Academy, South Africa ***January 2022 to December 2022***
    - Data Engineering, Streaming, Pipelines, Streamlit, Pyspark, Big Data processing, Cloud Computing. Python and SQL for Data Science. Advanced Regression, Advanced classification and NLP.
2. **Software Engineering** - ALX Africa ***January 2021 to December 2021***
    - C and Python Programming
    - Data Structures and Algorithms
3. **Bsc. Real Estate** - University of Nairobi, Kenya ***September 2015 to April 2019***
    - Attained second-class honors (Upper Division)

CERTIFICATIONS & ACHIEVEMENTS

1. **Certified Cloud Practitioner(CCP)**
   Amazon Web Services - Awarded in June 2022
2. **RealHive(Mobile and Web Application)** - Personal Initiative Project **Since November 2022**
    - Started working on this application to help people look for properties in a much easier way. Matchmaker for landlords and tenants.
    - Link: https://play.google.com/store/apps/details?id=com.realhive.app
3. **HauteCorner** - Personal Initiative Project **Since January 2022**
    - Working on an E-commerce application.
    - Link:https://play.google.com/store/apps/details?id=com.hautecorner.app
4. Member of Equity Leaders Program (ELP) **Since April 2015**
5. Best Student in Applied Valuation(Annual Knight Frank Award) **September 2019**
